ADDON - WLAN

DOCUMENT VERSION 1.0.2

SKU: RB_AOWLAN8

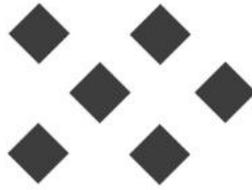

ABOUT ADDON - WLAN (M8)

The WLAN Add-On by REBOTNIX delivers fast and reliable Wi-Fi 6 connectivity in a compact, ruggedized module – ideal for extending wireless communication capabilities of REBOTNIX edge systems in demanding environments.

At its core is a high-performance Wi-Fi 6 module supporting IEEE 802.11ax with 2x2 MU-MIMO on both 2.4 GHz and 5 GHz bands, offering data rates up to 2.4 Gbps. The durable black anodized aluminum housing protects against environmental influences while providing a modern, premium look.

Powered and connected via a single USB-C cable for seamless integration. Fully CE and FCC certified, meeting international standards for safety and electromagnetic compatibility.

SPEZIFIKATIONS

ELEKTRICAL SPECIFICATIONS

DC voltage input	5V DC via M8 Socket
Power consumption	300mA

ENVIRONMENTAL SPECIFICATIONS:

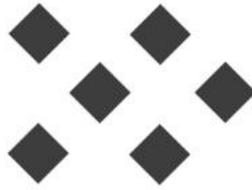

Temperature range	-20°C bis 70°C
Humidity	Non-condensing

INTERFACES & CONNECTORS

M8	M8 Socket, 4 Pin
ANT1	RP-SMA Socket
ANT2	RP-SMA Socket

WIRELESS COMMUNICATION – WLAN

WLAN	IEEE 802.11ax (Wi-Fi 6), 2,4/5 GHz, 2x2 MU-MIMO
Data Rate	Up to 2,4 Gbps

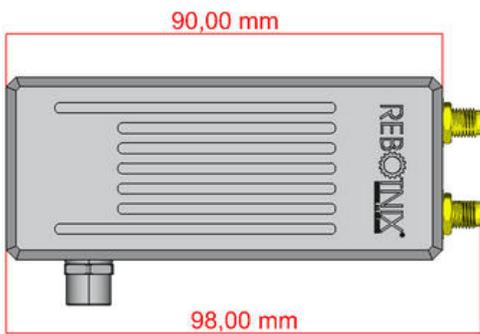

ADDON - WLAN

DOCUMENT VERSION 1.0.2

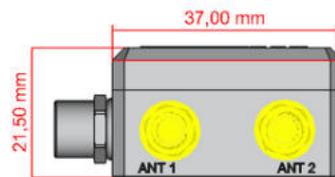

TECHNICAL SPECIFICATIONS

Dimensions	90mm x 37mm x 21,5mm (without Antenas)
Weight	130g
Housing	Black anodized aluminum
