

AI VISION AT THE EDGE NO EXTERNAL PC

GUSTAV AI VISION CONTROLLER

The advanced GUSTAV AI Vision Controller delivers the modularity required to handle demanding, compute intensive manufacturing applications without external PCs.

UP TO 275 TOPS
AI PERFORMANCE

IP67 / ATEX
INDUSTRIAL CAMERAS

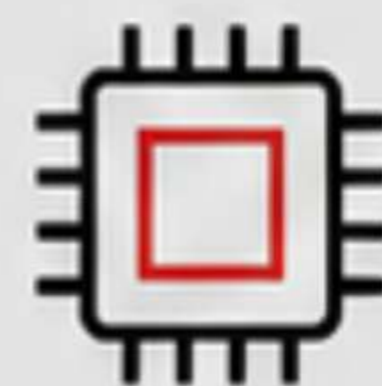

PoE
POWER OVER ETHERNET
Simple data transmission and power supply via a single cable.

UP TO 8 TB SSD
LOCAL DATA STORAGE
For high speed data processing and buffering at the edge.

BUILT FOR MANUFACTURING
Reliable performance for demanding industrial inspection tasks.

HIGH PERFORMANCE AT THE EDGE
Real time processing of complex AI models directly on the machine.

MODULAR AND FUTURE PROOF
Flexible camera configurations and seamless integration into existing systems.

**RUN AI WHERE IT MATTERS.
DIRECTLY AT THE EDGE.**

AI PERFORMANCE.
INDUSTRIAL RELIABILITY.
MAXIMUM FLEXIBILITY.

REBOTNIX®

INDUSTRIAL VISION SOLUTIONS

CONTROLLERS | SOFTWARE | EDGE AI

High-performance hardware and intelligent software for industrial vision and automation.
